

SOLOMONS' SECRETS AUDITIONS - JEN

You're right I am angry. I've been at this for years, injecting myself with hormones every day and going through countless medical procedures and miscarriages. What are we up to now? I think this one is number 5. It's a killer, not to mention the fact that I am still single. I got close you know. I spent my 20s and early 30s with Jamie. He was the love of my life. And then out of the blue one day he left me. Told me he had never really loved me. I was blind-sided. He married this marketing guru who works full time. He's the stay at home dad. He has these four cherubic kids who look like they've just stepped out of a Country Road catalogue. It's disgusting.

I know, I should really stop stalking him on Facebook. God, I'm just so pissed off with my body for not doing what it's meant to do. I'm angry everyone else can get pregnant so easily but I can't. I'm always asking myself why some violent druggie that will neglect her kids can get pregnant but I can't. How do I let go of my anger?
